

THE VOICE OF GOD

Thursday, March 30 | Exodus 3:1-15

A burning bush would be a wonderful sight to see. Wouldn't it be great if God spoke so clearly to us all! Moses had the blessing of a bright example of God's presence and voice in his life. Even still, he had doubts about the reality that God was actually speaking to him

We are the same. We have the voice of God and ear if God readily available to us, but still we choose to doubt and question what he saying and who is actually talking to us. We don't have a burning bush, but God is still active in speaking to us and teaching us. Would you join me and striving to listen to his voice so we may be better hear him? He's got a calling and plan for us.

Prayer: God, would you speak to us loudly? Would you open a blind eyes to where we cannot see you? Be present, and let us recognize your presence and call on our lives. Amen.
