

Small Group Lesson 6 | Life Changing Words: Help

Main Idea: Asking for help is a prayer of confession, admitting our need for and dependency upon God.

Main Scripture: John 2:1-11

Get Connected:

1. What was your primary takeaway from the "help" message?
2. How has your personality, upbringing or life experiences affected your ability to ask for help from others and God?

In the Word:

Read John 2:1-11

1. Use your imagination. What might the family be experiencing as the wine runs out?
2. What do we learn from the words/actions of each of the characters in this story?
3. What does this story teach us about asking for help from Jesus?

Application:

1. How difficult is it for you to ask Jesus for help? Why is it difficult?
2. "Christ turned water into wine, but the Church has done something even more difficult, it has turned wine into water." Soren Kierkegaard How has this been true in your life?
3. If you're ready, share how you need help from God and those who love you.
